

Q2018

BRING WITH PROJECT

MidAmerica Nazarene University | June 25-30, 2018

Hundreds of students will gather this summer for Q2018. Join us as we take this opportunity to impact the community through participation in a Bring With Project.

Cross-Lines Community Outreach is a social service agency in Kansas City, Kansas that provides services and opportunities to people affected by poverty.

The Hope Tote Program provides a tote bag full of toiletries and cleaning supplies.

When families enroll in the program, they receive a Hope Tote bag. Every 60 days, they can bring their bag back to Cross-Lines, and volunteers and staff refill the bag with these necessities. This program relies heavily on donations, toiletry drives, and volunteer support.

How you can help:

Bring toiletries!
Shampoo, conditioner, soap, toothpaste and toothbrushes, deodorant, feminine products, razors, brushes, and toilet paper. Gift cards to purchase these items are also welcomed.
